NATIONAL DISASTER RESPONSE PLAN

As of June 2014

NATIONAL DISASTER RESPONSE PLAN (NDRP)

Hydro-Meteorological Hazards Version 2

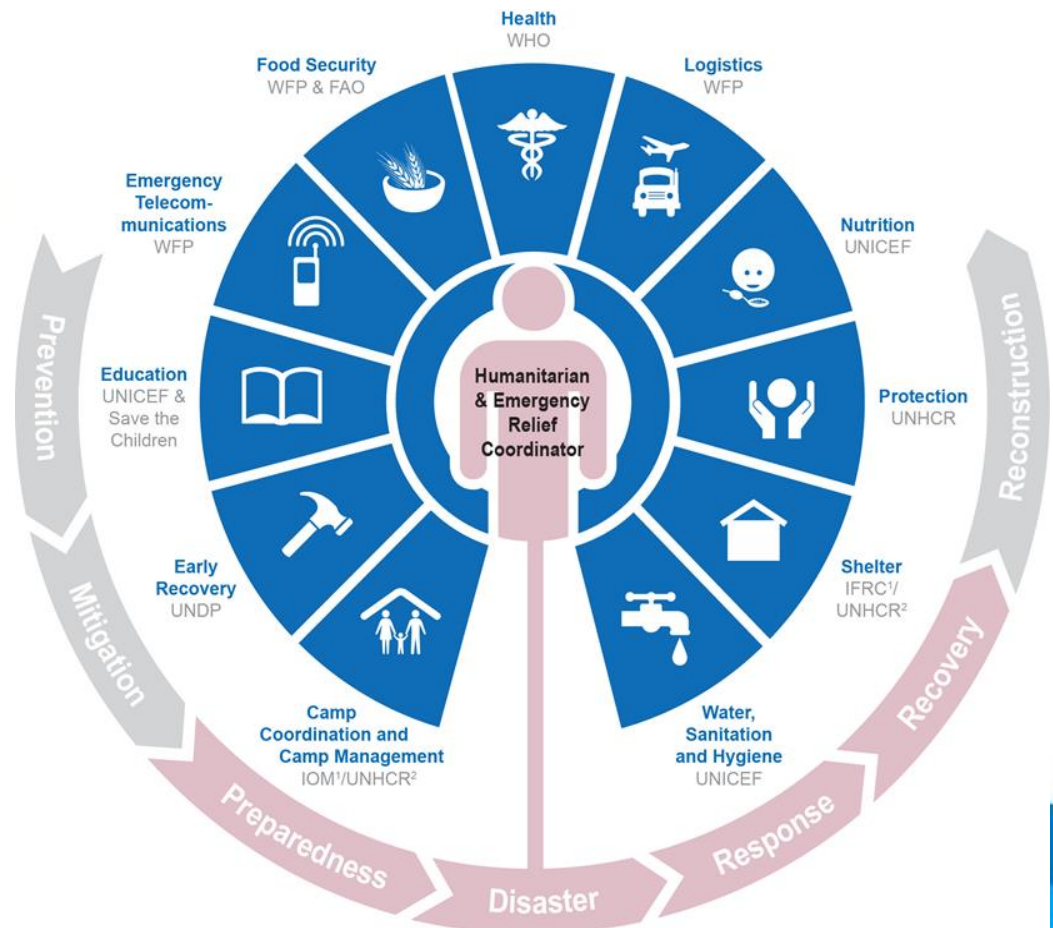

The Philippines lies in the Pacific typhoon belt. It is regularly ravaged by ever-intensifying typhoons, monsoon rains, floods and storm surges. It is therefore a categorical imperative to prepare and continuously upgrade its disaster response plans. The review of the National Disaster Response Plan (NDRP) for Hydro-Meteorological Hazards was convened on 12-16 September 2013 in Taguig City for this purpose.

MEMORANDUM
 No. 23, s. 2014

TO : All Secretaries and Head of NDRRMC Member-Agencies

SUBJECT : NDRRMC National Disaster Response Plan (NDRP) for Hydro-Meteorological Hazards

DATE : 20 OCT 2014

Reference: Section 6, Item (k) of RA 10121 which states that the NDRRMC has the responsibility to develop vertical and horizontal coordination mechanisms for a more coherent implementation of disaster risk reduction and management policies and programs by sectoral agencies and LGUs

To effectively carry out the responsibilities and functions, including the identified activities of the NDRRMC member-agencies in preparing for and effectively responding to disasters of national concern, hereby disseminated is the National Disaster Response Plan (NDRP) for hydro-meteorological hazards.

This Plan is the first in the series of a multi-hazards NDRP. It prescribes the relevant activities on how disaster response shall be conducted as augmentation or assumption of response functions to disaster-affected LGUs. It further includes roles and responsibilities of organizations for preparedness and effective response as well as specific roles and functions during disaster and emergency phase.

The Plan further adopts the cluster approach system instituted by then National Disaster Coordinating Council (NDCC) with expansion to include the Management of the Dead and Missing and Search, Rescue and Retrieval (SRR) clusters. Further, the Law and Order as well as International Humanitarian Assistance/Relations will form part as additional clusters pending the finalization of its operational guidelines.

The members of the NDRRMC are directed to implement identified preparedness activities contained herein towards the realization of an effective and responsive disaster and emergency response.

For guidance and compliance.
