

# **RESEARCH STUDY**

## **Effects Of Loan Granted by Land Bank of the Philippines to the Financial Performance of Cooperatives in Metro Man**

### **Objectives**

The main objective of the study was to assess the effects of loan granted by Land Bank of the Philippines to the financial performance of cooperative-borrowers in Metro Manila

# Highlights

The cooperatives with a decrease status of number of borrowers maybe attributed to the fact that the cooperative was in the process of restructuring their delinquent accounts. The cooperatives with an increase in the membership status of loans borrowers may continue to extend loans to members.

## Recommendation

- 1.The cooperative-borrowers should be pioneered in extending lending services to their members.
- 2.LBP should monitor that loan proceeds received by the cooperative-borrowers.

A hand holding a blue pen is positioned over a document. The document features a line graph with multiple colored lines (red, green, blue, yellow) and a bar chart with red and blue bars. The background is a light gray with a subtle grid pattern.
