# RESEARCH STUDY

## Listening Skills of Cooperative Managers in Iloilo City

## **Objectives**

To determine the listening skills of cooperative managers in Iloilo City

### **Highlights**

The results showed that generally, the cooperative managers had good listening skills. There were no significant differences in the listening skills of cooperative managers when they were classified according to age, gender, civil status, monthly income, and length of service.

#### Recommendation

- 1. Cooperative managers can still improve their listening skills for the betterment of their cooperative.
- 2. Cooperative managers should attend seminars and symposiums that will further enhance their listening skills.
