RESEARCH STUDY

The New Generation Philippine
Banknotes: Awareness Among
Cooperatives Management
Students

Objectives

To find out the awareness of cooperatives management students to the new generation Philippine banknotes.

Highlights

The study found that there were no significant differences in the awareness of the cooperatives management students when respondents were classified according to gender. However, there were significant differences in the awareness of the cooperatives management students when respondents were classified according to year level.

Recommendation

- 1. Considering the high level of students'awareness among the new currency educational institutions should encourage students to apply their knowledge in detecting the genuine and counterfeit banknotes. This can start in the classroom, at home, and at the community.
- 2. The Association of Cooperatives Management Students must undertaken an information dissemination campaign about the new Philippine Currency among all students of West Visayas State University.

The administration should encourage curricular and co-curricular activities to include more opportunities for seminars and campaign about the new Philippine currency
