28 Individual Performance Management – Performance Planning and Commitment

The Strategic Performance Management System (SPMS) is a mechanism that links employee performance with organizational performance to enhance the performance orientation of the compensation system. It ensures that the employee achieves the objectives set by the organization and the organization, on the other hand, achieves the objectives that it has set as its strategic plan.

During Performance Planning and Commitment, success indicators are determined. Success indicators are performance level yardsticks consisting of performance measures and performance targets. These shall serve as bases in the office's and individual employee's preparation of their performance contract and rating form.

29 Individual Performance Management – Performance Review and Evaluation

This phase aims to assess both office's and individual employee's performance level based on performance targets and measures. Part of the individual employee's evaluation is the competency assessment vis-à-vis the competency requirements of the job. The assessment shall focus on the strengths, competency-related performance gaps and the opportunities to address these gaps, career paths, and alternatives.
