

In 2021, CDA forged partnership with the Philippine Fisheries Development Authority (PFDA). This partnership aims to help micro and small cooperatives enhance their capability and attain economic sustainability and food security through the provision of accessible and affordable fish and fishery products across the country through the project *isDA ON THE GO*.

Through this project, communities would be able to purchase goods at more affordable prices. With the assistance of PFDA cooperatives will be provided more capital, facilities and opportunities for cooperatives to market and distribute fish products.

During the launching PFDA will be giving one (1) unit Chest Freezer 20cu.ft Solid Top Chest Freezer, Model MCF 20 to each of the cooperative beneficiaries in Southern Leyte. CDA Region VIII identified the following micro and small as the priority cooperative beneficiaries of the project, to wit:
